

Wei Bo Associates HK Limited

Wei Bo Associates HK, Ltd. to Participate in COMCAS 2017

For Immediate Release: 11 NOV 2017

Wei Bo Associates HK, Ltd., the industry's leading supplier of high power, SMT RF Limiters and Switches announces their participation in COMCAS 2017 from Nov 13th to 15th along with MTi Summit, their representative in Israel.

"Wei Bo Associates HK, Ltd. strategic alignment with key customers in Israel, and elsewhere, has played a critical role in the success of the launch of our business" stated Timothy Emery, Senior Partner and Vice President of Business Development.

Wei Bo Associates HK, Ltd, will be introducing four new products at COMCAS 2017:

- [MSW2T-2735-196](#), the industry's highest power S Band SMT SP2T
- [MSW2T-8512-740](#), the industry's highest power X Band SMT SP2T,
- [RFLM-262322HC-151](#), the highest power, fastest recovery SMT S Band Limiter,
- [RFLM-872113HC-761](#), the highest power, fastest recovery time SMT X Band Limiter

These industry leading S & X Band RF Switch and Limiters are offered from the friendly convenes of our Hong Kong base of operations.

Mr. Emery continued: "Debt burdened RF conglomerates are causing OEMs tremendous anguish. They are extremely concerned that these suppliers are struggling to service their M&A derived debt loads. In some cases the debt to sales ratios are approaching 150%, and is reminiscent of the Asian financial crisis of the late 90's. Should the market soften even slightly, default, divestiture, or merger are the only options - all of which threatens the continuity of supply. The uncertainty caused by further supply disruptions are driving many RF OEMs in search of safe harbors which Wei Bo Associates HK, Ltd, was founded to service from the world's most friendly business base."

Please visit us at the MTi Summit booth (28, 29, 37 & 38).

About Wei Bo Associates HK, Ltd.: *Wei Bo Associates HK, Ltd. is privately held and was founded by industry veterans in 2014 specifically focused on supporting RF customers in the BRICS nations who have become marginalized by the unhealthy trend of RF industry consolidation. Wei Bo Associates HK, Ltd. offers high power, high reliability, SMT Limiter and Switches in the HF to X Band frequency range designed, developed and produced in the company's Hong Kong and Malaysia facilities.*
